Investments involve risk and, unless otherwise stated, are not guaranteed. Be sure to first consult with a qualified financial adviser and/or tax professional before implementing any strategy discussed herein. Past performance is not indicative of future performance. Quantum Wealth Advisors LLC may discuss and display, charts, graphs, formulas that are not intended to be used by themselves to determine which securities to buy or sell, or when to buy or sell them. Such charts and graphs offer limited information and should not be used on their own to make investment decisions.

AS WITH ALL MARKET INVESTMENTS, YOUR INVESTMENTS CAN APPRECIATE OR DEPRECIATE AND USER ACKNOWLEDGES THAT A LOSS OF PRINCIPAL INVESTMENT IS POSSIBLE.

The risk of loss in market timing or trying to anticipate the best time to buy or sell can be substantial. You should, therefore, carefully consider whether such trading is suitable for you in light of your circumstances and financial resources. Some risks can include:

• Missing out: Investors who try to time the market risk missing out on periods of high returns.

• Timing errors: Investors can make mistakes in timing, which can lead to purchasing too high or selling too low.

• Transaction costs: Investors who try to time the market may face higher capital gains taxes from the government.

• Market efficiency: Markets are efficient at quickly pricing unexpected news. It’s difficult for investors to accurately pinpoint market highs or lows until after they’ve already occurred.

THIS BRIEF STATEMENT CANNOT, OF COURSE, DISCLOSE ALL THE RISKS AND OTHER ASPECTS OF MARKET TIMING.
